Introduction

- Task management is the tool for creating and managing tasks through the project's life cycle.
- It includes gathering requirements, planning, status tracking, testing and creating final reports when tasks are completed.
- It's a list of tasks you need to complete or things that you want to do. Mostly, they're organised in order of priority.

Components

- Login
- Register
- About
- Add to-do's
- To-do item
- Tips

RoadMap
